

DOCKET FILE COPY ORIGINAL

RECEIVED

JUL 19 1993

Before the
Federal Communications Commission
Washington, D.C.

FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

In the Matter of:)
ITU World Administrative)
Radio Conference)

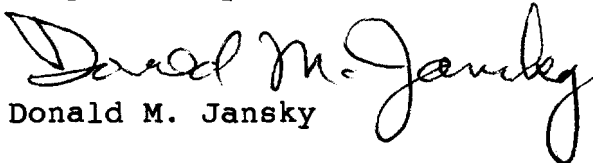

ET Docket No. 93-198

competent conference.

It now appears that the requested work by the CCIR will be accomplished in the timeframe necessary for this matter to be placed on the agenda for WRC-95. As the history of this issue will show, the reason this item was treated at WARC-92 was to correct an imbalance in the amount of uplink (Earth-to-space) Fixed Satellite Service spectrum available at 11/14 GHz. With the confirmation of the sharing criteria which is expected to result from the work of TG 4/4, an additional 250 MHz of spectrum will become available.

In conclusion, it is strongly urged that the U.S. proposals to WRC-95 include an agenda item to review and confirm the sharing criteria specified in RR 855A as required by Resolution 112.

Respectfully submitted

Donald M. Jansky

U.S. Chair Task Group 4/4

Jansky/Barmat Telecommunications,
